

Exploring the Global Goals

FIVE NATIONS NETWORK

PROJECT AIMS:

- To explore the Global Goals
- To create a Global Goals teaching resource
- To teach younger students about the Global Goals

ACTIONS:

- Students explored a specific goal in groups
- They created a resource booklet about the goals
- They held a Global Goals workshop that younger students attended

All the students involved in the project thoroughly enjoyed the work and learned so much about the SDGs!

Hayley Spollen (teacher)

IMPACT:

- The resource is available in hard copy and online on our school's virtual learning environment
- The students know about the Global Goals in detail
- The students have developed their communication skills by teaching the younger students
- They have also developed their literacy and IT skills by creating the resource
